ARF-WL8-OUT

Wireless output module

The wireless output module has been designed to allow control of a variety of equipment including access control doors, ventilation plant and fire extinguishing systems.
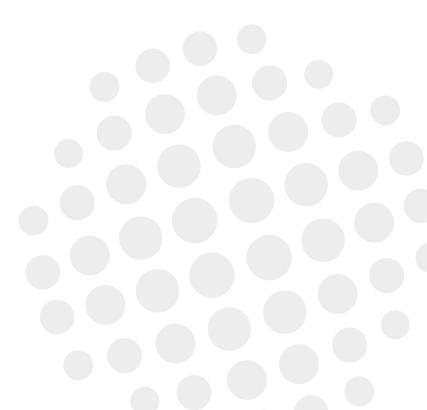

FEATURES:

- Activation synchronization with other modules

- Bi-directional wireless communication

- Fully intelligent

- 10-year battery life

- Self-optimizing wireless frequency and amplitude algorithms

- Operating temperature range: −10 °C to +55 °C

The product complies with the requirements of the EN54-18:2005, EN54-25:2008 standards.
