ARF-WL8-HS

Wireless heat detector with built-in sounder

The wireless heat detector with built-in sounder continuously samples the temperature in the protected area to provide the earliest warning of fire. The device is capable of being configured on site as either a fixed temperature or rate of rise. Build-in sounder provides notification in case of a fire.

FEATURES:

- Rate of rise or fixed temperature mode
- Bi-directional wireless communication
- Fully intelligent
- Sound synchronization with other sounders
- 10-year battery life
- Self-optimizing wireless frequency and amplitude algorithms
- Operating temperature range: −10 °C to +55 °C
